

BATAVIA LOCAL SCHOOL DISTRICT

Dear Batavia Local School District Resident:

Batavia Local School District has an opportunity to partner with the Ohio School Facilities Commission to update the facilities of our district. This partnership with OSFC will include the Ohio School Facilities Commission funding 49% of the cost of the project if we are able to fund the other 51% of the project through the passage of a tax levy.

The Board has been discussing the facility needs of the district along with considering the current economic condition of the voters of the Batavia Local School District. After much discussion the Board is favoring replacing the current elementary school. Below is an example of the approximate cost of building a new 125,000 square foot elementary school:

Ohio School Facilities Commission Share (49%)	\$ 12,044,965
Batavia Local School District Share (51%)	\$ 12,536,596
Total Cost (100%)	\$ 24,581,561

However, prior to proceeding with any project, the Board would like input from Batavia Local School District residents. We would appreciate you taking the time to complete the short questionnaire on the back of this sheet. Once completed the questionnaire can be returned in the following ways:

1. Give to a Board Member
2. Deliver or mail to: Board of Education
Batavia Local School District
800 Bauer Avenue
Batavia, OH 45103
3. Email to: Barbara Bradley, Superintendent at Bradley_b@bataviaschools.org

Thank you for your input.

Sincerely,

Batavia Local School District Board of Education

1. Do you believe replacing the current elementary school is the greatest facility need for the Batavia Local School District?

2. In your opinion, where do you believe is the best location for a new building?

3. Would you be willing to approve a new tax levy to pay for a new building?

4. Please provide any other comments for the Board of Education's consideration.
